

ADVANCE ENERGY PLC
(the “Company”)

Statement of Compliance with the QCA Corporate Governance Code

(The information contained in this document was last reviewed on 21 September 2021)

In addition to information given in this Statement the Board of Directors of Advance Energy Plc (the “Board”) are continually monitoring the position regarding the COVID-19 pandemic and will provide Company updates via the RNS service as appropriate.

Introduction

The Board of Advance Energy plc fully endorses the importance of good corporate governance and applies the QCA Corporate Governance Code, published in April 2018 by the Quoted Companies Alliance (the “QCA Code”), which the Board believes to be the most appropriate recognised governance code for a company of the Company’s size with shares admitted to trading on the AIM market of the London Stock Exchange.

The Chairman is responsible for leading an effective board, fostering a good corporate governance culture, maintaining open communications with the major shareholders and ensuring appropriate strategic focus and direction for the Company.

Notwithstanding the Board’s commitment to applying the QCA Code, we will not seek to comply with the QCA Code where strict compliance in the future would be contrary to the primary objective of delivering long-term value for the Company’s shareholders and stakeholders. However, we do consider that following the QCA Code, and a framework of sound corporate governance and an ethical culture, is conducive to long-term value creation for the Company’s shareholders.

All members of the Board believe strongly in the importance of good corporate governance to assist in achieving objectives and in accountability to the Company’s stakeholders. In the statements that follow, the Company explains its approach to governance in more detail.

Principle One

Business Model and Strategy

As announced on 17 December 2020, in accordance with the Company’s strategy to focus on growth through acquisition or farm-in to non-operated interests in upstream projects, the Company entered into a conditional Buffalo Subscription Agreement pursuant to which the Company’s wholly owned subsidiary, Advance Energy TL Limited (“AETL”) subscribed for equity such that AETL holds 50 per cent. of the total equity interest in Carnarvon Petroleum Timor for a consideration of US\$20 million. Carnarvon Petroleum Timor holds a 100 per cent. working interest and is the contractor under the Buffalo PSC, offshore Timor-Leste. Carnarvon Petroleum Timor is a subsidiary of ASX listed company, Carnarvon Petroleum Limited.

In conjunction with this, the Company placed 840,100,000 Placing Shares at the Placing Price of 2.6 pence to raise total gross proceeds of £21,842,600 (approximately US\$30,033,575), part of which funded the subscription into Carnarvon Petroleum Timor. The Acquisition and the Placing (“RTO”) were approved by Shareholders at the Extraordinary General Meeting of the Company held on 16 April 2021.

Unlocking hidden value is the Company's main objective - to the benefit of shareholders as well as our joint venture partners, host governments, and broader stakeholders.

Many upstream assets present challenges to existing operators. These difficulties may be technical in nature, misalignment in the partnership, suboptimal commercial arrangements, or simply funding constraints.

One, or a combination, of these issues can present the opportunity for realisation of added value. The Company looks to identify such assets and maximise their value using unique insights from original technical work, commercial acumen or advantaged relationships.

The Company seeks to take non-operated interests in joint ventures, ideally with only two parties, with the ability to exert a significant degree of influence. The Company only works with established operators eliminating many of the execution risks present for typical early stage, high growth companies, and can focus on what really adds value rather than day-to-day operational concerns. There is no need to build a large and complex organisation, keeping overheads low and preserving value for shareholders.

Principle Two

Understanding Shareholder Needs and Expectations and Build Trust

The Board is committed to maintaining good communication and having constructive dialogue with its shareholders. Institutional shareholders and analysts have the opportunity to discuss issues and provide feedback at meetings with the Company. The Company is required to hold an Annual General Meeting ("AGM") in each year, which gives investors the opportunity to enter into dialogue with the Board and for the Board to receive feedback and take action if and when necessary. Where voting decisions are not in line with the Company's expectations the Board intends to engage with those shareholders to understand and address any issues as appropriate. Investors also have access to current information on the Company through its website.

Shareholders can engage with the Company through its email address info@advanceplc.com and @advanceplc on Twitter.

Investors also have access to current information on the Company through its website, www.advanceplc.com.

Principle Three

Considering wider stakeholder and social responsibilities

The Board is aware that engaging with its stakeholders strengthens relationships and assists it to make better business decisions to deliver its commitments. The Company's stakeholders include shareholders, members of staff, suppliers, contractors, regulators, and the surrounding communities where its projects are located.

The Board is regularly updated on wider stakeholder views and issues concerning its projects both formally at Board meetings and informally through conversations. Engagement in this manner enables the Board to receive feedback and equips them to make decisions affecting the business.

The Board recognises the importance of its social responsibilities concerning its investment decisions, and the Company will develop projects that seek to make a contribution to the development of communities

in which they are located. In planning its activities, the Company will give consideration to evaluating the social impact of proposed developments with a view to promoting where possible local employment and the delivery of other local benefits and mitigating negative impacts to the extent possible.

Principle Four

Risk Management

In addition to its other roles and responsibilities, the Board is responsible for ensuring that procedures are in place and are being implemented effectively to identify, evaluate and manage the significant risks faced by the Company and to ensure that risk management is reflected in Board remuneration.

The Company's focus on near term value creation means it is easier to control risks, limiting exposure to long term commodity price trends, as well as the potential for value to be stranded as the result of a future changing world energy mix or climate change initiatives.

The Group's operations expose it to a variety of risks that include volatility of commodity prices, foreign currency volatility, operational risks, availability of finance and funding.

The Group has a risk management programme in place that seeks to limit the adverse effects on the financial performance of the Group by monitoring levels of debt finance and the related finance costs.

Risk is monitored, assessed and managed by the Board as a whole who are responsible for ensuring that the financial performance of the Company is properly monitored and reported. This process includes reviews of annual and interim accounts, results announcements, internal control systems, procedures and accounting policies.

The Board identifies and evaluates financial risks in close co-operation with the managers who are a highly experienced team who can focus on the key issues to maximise value and de-risk Company projects.

The key risk factors for the Company are contained in pages 33-34 of the Company's 2021 Annual Report and Accounts ("2021 Accounts").

Principle Five

A Well Functioning Board of Directors

The Board comprises, Mark Rollins non-executive Chairman and director, Leslie Peterkin Chief Executive Officer and executive director, and Stephen West Chief Financial Officer and executive director. Ross Warner, Stephen Whyte and Larry Bottomley serve as non-executive directors. Executive and Non-Executive Directors are subject to re-election at the Company's AGM in accordance with the Company's Articles of Association. The letters of appointment of all Directors are available for inspection at the Company's registered office during normal business hours. The Directors are expected to provide as much time to the Company as is required. The Board elects a Non-Executive Chairman to chair every meeting.

All the Directors biographies are published on the Company's website and outlined below:

Principle Seven

Evaluation of Board Performance

There is no formal Board or director evaluation system in place, however, there is an internal evaluation of the Board and individual directors undertaken on an ad hoc basis in the form of peer appraisal and discussions to determine the effectiveness and performance as well as the directors' continued independence. This process can be regular as part of the board meeting process or ad hoc when the director or Board deem it necessary.

The results and recommendations that come out of the appraisals for the directors shall identify the key corporate and financial targets that are relevant to each director and their personal targets in terms of career development and training. Progress against previous targets shall also be assessed where relevant.

Principle Eight

Corporate Culture

The Board recognises that their decisions regarding strategy and risk will impact the corporate culture of the Company as a whole and that this will impact the performance of the Company. The Board is very aware that the tone and culture set by the Board will greatly impact all aspects of the Company as a whole and the way that employees behave. The corporate governance arrangements that the Board has adopted are designed to ensure that the Company delivers long term value to its shareholders and that shareholders have the opportunity to express their views and expectations for the Company in a manner that encourages open dialogue with the Board.

The Company maintains an open and respectful dialogue with employees, partners and other stakeholders. Therefore, the importance of sound ethical values and behaviours is crucial to the ability of the Company to successfully achieve its corporate objectives. The Board places great importance on this aspect of corporate life and seeks to ensure that this flows through all that the Company does. The Directors consider that at present the Company has an open culture facilitating comprehensive dialogue and feedback and enabling positive and constructive challenge.

The Company has put policies in place that communicate disciplinary policies clearly; ensures every employee knows the consequences of unethical behaviour; ensures its employees can report misconduct anonymously and has a confidential complaint process in place.
